## Spam Filter Upgraded

By [Sunburnt Internet Marketing](#), 25 March 2015

Dear Valued Customers,

Recently we deployed a new spam filter on our network which adds literally hundreds of new tests on your incoming mail. With well over half of all email on the Internet being spam, we're sure you'll notice the difference in your inbox.

Spam is a problem for you because it create a lot of distraction making hard to find important messages in your inbox. It's a problem for us because it clogs up our network and can spread malicious software mostly designed to send more spam.

That's why we're adamant about stopping it.

Below are some of the statistics on just a handful of the tests that our spam filter runs on your mail. If you have problems with our filter blocking legitimate email, please let us know the email address being blocked so we can investigate.

Best wishes,

Sunburnt.
